

WALLS SUCK!

But they suck a lot less with Air Fence. That's why WMRRA is buying 350 feet of the stuff. What is Air Fence? It's basically a big pillow that goes between you and the wall when you crash.

The problem is that this stuff ain't free. It ain't even cheap. But, your club is absolutely committed to rider safety, which is why we are committed to buying this fence, no matter what. But, we really need everyone's help to pay for this. Instead of raising fees, or charging the membership, we are asking every rider to contribute what they think they're neck is worth. If you don't value your own neck (you know who you are!) then think about what your pit buddy's neck is worth.

Please contribute to the WMRRA Air Fence Fund. 100% of the money will go to buy and maintain Air Fence safety equipment, and allow us to have safer racing in Washington for years to come!

For questions or to pledge, please contact Briggs Willoughby
kneepuck@hotmail.com
(425)254-0141

To contribute, please send a check, made out to WMRRA to:
WMRRA Air Fence Fund
